Internet "Citizen's Mailbox" for Xàbia residents

March 5th

Xàbia is to set up a web based "Citizen's mailbox" so that residents can make their suggestions directly to the town hall. This is an initiative from the Valencia Conselleria de Solidaridad y Ciudadanía (Ministry of solidarity and citizenship). Technical staff from the Ministry will help the Town hall implement the idea. This will be launched as part of the the "Charter of good practice", a document which promotes citizen participation in governance, which was approved by the Town Hall recently. It is a commitment to create municipal management which is more open to the public, promoting cultural diversity (integration, the fight against xenophobia and human rights) and ensuring a transparent, responsive, effective, consistent and sensitive work environment. From Press Release. The Carta de buenas Practicas (in PDF format, in Castellano) can be downloaded from a link on the Wiki Webpage.

Old Folks offered free digital TV receiver

March 4th

Spanish analogue TV signals are being progressively turned off and TV will be totally digital as of April 3rd. Xàbia Town Hall is therefore assisting the elderly to continue to receive TV by giving away free set top boxes to the over 80's, the highly visually or hearing impaired, and disabled dependents over 65. Those interested should contact Social Services (next to the health centre) From XAD Xabia acerca...
